**Ease of Application**

**Wide Versatility**

**Outstanding Physical Properties**

---

**Powerful, Environmentally & Toxically Safer Formulation (It has low toxicity)**

**Premium Cleaner for All Kinds of Electrical Contacts, Components, Installations & Motors**

**Evaporates Instantly – Use on Delicate Parts & Plastics**

**High Purity Solvent Leaves No Residue & No Scrubbing**

**Unique Stabilizer Package Enhanced Performance**

---

**Corium 168 Electrical & Motor Cleaner**

**Corium Industrial Chemicals**

**Special Features**

- CORIUM 168 is the latest environmentally-friendly, multipurpose NPB (N-Propyl Bromide) based cleaner formulated with high-purity solvent and fast evaporation formulation.

- CORIUM 168 serves as the perfect alternative to ozone-depleting CFC and HCFC cleaners.

- CORIUM 168 best protects electrical components and cleans without scrubbing.

- CORIUM 168 offers fast evaporation for top degreasing impact – up to 33% faster than Trichloroethylene.

**Outstanding Properties**

- Minimal ozone depletion or global warming potential.

- No residues, fast drying.

- A high performance substitute for Trichloroethane, Trichloroethylene and other solvents.

- Low toxicity, not classified as carcinogenic.

- Moderately low boiling point – evaporates instantly.

- Non-flammable (any combustion of NPB rapidly self-extinguishes).

**Use For**

CORIUM 168 Electrical & Motor Cleaner is a truly versatile and powerful electrical cleaner ideal for a wide range of uses:

- All kinds of electrical contacts, components, motors, switch controls, potentiometers, contacts, circuit breakers, relays, solenoids, rectifiers, plugs and receptacles, condensers, generators, insulation coils, instruments, meters, timers, panelboards, signals, alarms, controls, recorders, shielding, counters, oscillators, filters, rheostats, sub-assemblies, synchronizers, transmitters, receivers, testers, exciters, headsets, microphones, speakers, plastics*, printed circuits, painted and plated surfaces.

**Note**

Some sensitive plastics & elastomers should be tested for compatibility before use.
SPECIAL FEATURES
CORIUM 168 Electrical & Motor Cleaner is the latest environmental-friendly, multipurpose NPB (N-Propyl Bromide) based cleaner formulated with high-purity solvent and fast evaporation formulation
• CORIUM 168 serves as the perfect alternative to ozone-depleting CFC and HCFC cleaners
• CORIUM 168 best protects electrical components and cleans without scrubbing
• CORIUM 168 offers fast evaporation for top degreasing impact - up to 33% faster than Trichloroethylene

OUTSTANDING PROPERTIES
• Minimal ozone depletion or global warming potential
• No residues, fast drying
• A high performance substitute for Trichloroethane, Trichloroethylene and other solvents
• Low toxicity, not classified as carcinogenic
• Moderately low boiling point – evaporates instantly
• Non-flammable (any combustion of NPB rapidly self-extinguishes)

USE FOR
CORIUM 168 Electrical & Motor Cleaner is a truly versatile and powerful electrical cleaner ideal for a wide range of uses:

All kinds of electrical contacts, components, motors, switch controls, potentiometers, contacts, circuit breakers, relays, solenoids, rectifiers, plugs and receptacles, condensers, generators, insulation coils, instruments, meters, timers, panelboards, signals, alarms, controls, recorders, shielding, counters, oscillators, filters, rheostats, sub-assemblies, synchronizers, transmitters, receivers, testers, exciters, headsets, microphones, speakers, plastics*, printed circuits, painted and plated surfaces.

Note: Some sensitive plastics & elastomers should be tested for compatibility before use.
