"Rapid Repair" Machinable Sealing & Filling Compound

CORIUM 4060

SPECIAL FEATURES

Corium 4060 "Rapid Repair" Machinable Sealing & Filling Compound is the advanced sealing and filling compound that is handy to use, provides reliable results and seals and patch-repairs almost any hard surface.

- **Corium 4060** lets you make economical, reliable and machinable repairs in just minutes.
- **Corium 4060** seals and patch-repairs virtually any metal or non-metal hard surface without effort.
- **Corium 4060** gives professional results every time without special tools, training or expertise.

OUTSTANDING PROPERTIES

Corium 4060 is the machinable sealing and filling compound that :

- Partially cures in minutes and obtains full strength within one hour.
- Cures under water.
- Seals surfaces in irregular shape and can be sanded or machined to desired shape after curing.
- Can be painted over after curing to ensure a virtually invisible and professional finish.

USE FOR

Corium 4060 is extremely versatile and can be used for hundreds of diverse applications, including as a sealant or joining adhesive, putty for building up parts and voids.

Use **Corium 4060** confidently on ferrous and non-ferrous metals including:

Steel • Copper • Aluminum • Cast Iron • Stainless Steel • Galvanized • Brass and Chrome.

Corium 4060 works well on hard-surfaced, non-metal applications including:

PVC • Glass • Wood • Concrete • Ceramic • Brick • Tile • Porcelain • Enamelware • Plastic Surfaces and Parts.
