SPECIAL FEATURES

Corium Z105 Battery Cleaner & Terminal Conditioner is the super effective, ultra efficient advanced aerosol battery cleaner and terminal conditioner that makes the cleaning of lead acid batteries fast and simple.

- **Corium Z105** cleans all lead acid batteries without hard labor and chemicals.
- **Corium Z105** removes grease, road grime and "baked on" acid accumulations.
- **Corium Z105** restores that "spanking new" look usually without removing battery from equipment – saves you time and money!

OUTSTANDING PROPERTIES

Corium Z105 is the superior aerosol battery cleaner and terminal conditioner that:

- Provides convenient one-step cleaning in what was once a dirty, unpleasant and time-consuming job.
- Contains exclusive surfactants that loosen all grit, grime and acid accumulations on the terminals and cables.
- Contains non-toxic ingredients that offer three times the effectiveness of conventional soda and water cleaner.
- Features compressed gas spray action that effectively blasts most of the battery's contaminants off within seconds.

USE FOR

Corium Z105 makes the cleaning of lead acid batteries a fast and efficient one-step action. **Corium Z105's** penetrating deactivator action goes on fast with a slight foaming action that lets you see it at work. **Corium Z105's** exclusive surfactants then neutralize and loosen existing grit, grime and acid accumulations on the battery's body and terminals

Using **Corium Z105** means that, within just five minutes, all foreign matter on the battery has been chemically removed from treated surfaces. A quick wipe with a wet cloth will flush away all the loosened accumulations and leave the treated battery looking "spanking new".

Use **Corium Z105** confidently on all lead acid batteries.
