CORIUM Z187

Super Gasket Remover

Super Gasket Remover

- *Quickly & economically removes old gaskets & gasket compounds.*
- *Ensures maximum "sealability" when new gasket is applied.*
- *Contains no acids or alkalis – absolutely will not harm metal surfaces.*

TRUST *Ease of Application*
CORIUM *Wide Versatility*
FOR *Outstanding Physical Properties*

SPECIAL FEATURES

Corium Z187 Super Gasket Remover is the superior formulation in convenient aerosol form that makes the removal of damaged and sticking gasket materials fast and simple.

- **Corium Z187** quickly and economically removes old and damaged gaskets and sticky and hardened gasket compounds.
- **Corium Z187** ensures maximum "sealability" when new gasket is applied.
- **Corium Z187** is free from acids and alkalis and absolutely will not harm metal surfaces.

OUTSTANDING PROPERTIES

Corium Z187 is the superior gasket remover that :

- Contains high-energy chemical ingredients that neutralize the adhesion between metal surfaces to ensure the easy removal of gasket material.
- Eliminates the need for harmful and time-consuming mechanical abrasion, scrapping and sand-papering.
- Requires no post-application surface treatment – gets your engines, machinery and equipment back on the job faster!

USE FOR

Corium Z187 features high-energy ingredients that quickly and economically remove old or damaged gasketing compounds and materials from engine, machinery and equipment surfaces and ensures maximum "sealability" when a new gasket is installed.

Corium Z187 works by chemically neutralizing the adhesion between the existing gasket material and destroying the molecular attraction to the under metal surface. This non-damaging chemical reaction eliminates the need for further mechanical work as the gasket will just easily peel away.

Use **Corium Z187** confidently on gaskets and gasket compounds on engines, machinery and equipment of all types.
