SPECIAL FEATURES

Corium Z211 Moisture Suppressant for Electrical Fittings

is the superior formulation in aerosol packaging that gets under moisture to quickly evaporate water-logged systems and get you up and running again.

- **Corium Z211** quickly dries out water-logged electrical and electronic parts, components and systems.
- **Corium Z211** effectively prevents short circuits in delicate electrical parts.
- **Corium Z211** works to protect metal parts and components from damaging corrosion.

OUTSTANDING PROPERTIES

Corium Z211 is the advanced formula water displacement compound that:

- Actually creeps under water, raises it from the surface and hastens its evaporation.
- Contains a water repellent that forms a thin, continuous moisture-impervious film – provides protection for months.
- Contains rust-inhibiting agents that guard against corrosion.
- Is quality formulated with selected elements that positively protect your automobiles, machinery and equipment against costly downtime – saves you time and money!

USE FOR

Corium Z211 is an advanced, maintenance-engineered product designed specially to solve virtually all of your electrical and electronic moisture problems. **Corium Z211** contains a precisely formulated group of ingredients that combine in an easily applied, fast-working, ultra-effective product that penetrates cracks and crevices, gets under water and enables rapid evaporation.

Corium Z211 effectively and efficiently dries out water-logged electrical and electronic parts and systems and then coats the components of these systems with a water repellent that also provides protection against corrosion.

Use **Corium Z211** confidently on:

Starters • Spark Plugs • Generators • Voltage Regulators • Distributors • Wiring • Solenoids • Thermostats • Coils • Electric Motors • Power Tools • Meters • Electrical Controls • Communications Equipment • Stored Machinery • and more
