## SPECIAL FEATURES

**Magna 75F Multi-Purpose Flux-Coated Brazing Alloy** is the "All-Rounder" for virtually any metal or combination of metals.

- **Magna 75F** provides superb versatility – welds practically all types of metals, including cast iron.
- **Magna 75F** is ideal for use with tight joints and gap bridging or filling use.
- **Magna 75F** is the right choice for easy "fool-proof" all-position application in almost any situation.

## OUTSTANDING PROPERTIES

**Magna 75F is the flux-coated brazing alloy that:**

- Joins galvanized without damaging sensitive zinc coating.
- Is effective even on rusty or dirty metals.
- Has high wettability to reduce distortion even on thin sections.
- Provides superior fluxing action to enable solid bonding on difficult metal combinations

## USE FOR

**Magna 75F** has a special affinity for cast iron, but also gives excellent results with galvanized iron, brass and steel. Can be used effectively on thin metal.
