SPECIAL FEATURES

Omega 657 Premium Quality Cutting Oil is the high-quality, high shock load resistant cutting oil developed for machining tough ferrous alloys, mild steel and cast iron.

- **Omega 657** contains Omega's unique HSLR (High Shock Load Resisting) additives that enable tools to machine and cut at unprecedented high speeds and feed rates.
- **Omega 657** is ideal for severe cutting operating such as broaching and machining tough alloys.
- **Omega 657** significantly extends the service life of cutting tools – saves time and money!

OUTSTANDING PROPERTIES

Omega 657 is the premium quality cutting oil that:

- Contains high-performance additives that enable greater cutting accuracy for all jobs.
- Gives reliable, high lubricity that enables cutting tools to bite consistently.
- Is highly transparent to provide operators with better observation of work piece – greatly improves quality of work.
- Is odor-free and non-fuming – will not turn rancid and cause dermatitis or skin irritation.

USE FOR

Omega 657 is a specially engineered, advanced cutting lubricant that provides significant advantages over ordinary cutting oils and commercial dark oils generally used for machining. With **Omega 657**, machining time for tough ferrous alloys is reduced dramatically, while inaccurate cutting and spoiled work becomes a thing of the past.

Use **Omega 657** for operation such as:

- Milling • Drilling • Turning • Thread Cutting • Grinding
- Tapping • Light and Medium Duty Broaching.
